# IceCube Neutrino Observatory Maintenance & Operations Common Fund Status Report

### Adi Peles, Catherine Vakhnina, Resource Coordinators

## Introduction

The IceCube M&O Common Fund was created in April 2007, the start of formal operations, to enable collaborating institutions to contribute to the costs of maintaining the computing hardware and software required to manage experimental data prior to processing for analysis. Each institution contributes to the Common Fund based on the total number of the institution's Ph.D. authors.

The Collaboration updates the Ph.D. author count twice a year at the collaboration meetings in conjunction with the update to the IceCube M&O Scope of Work and responsibilities in the Institutional Memorandum of Understanding. Effective April 1, 2010, the annual established rate per Ph.D. author is \$13,650.

The M&O activities identified as appropriate for support from the Common Fund are those core activities that are agreed to be of common necessity for reliable operation of the IceCube detector and computing infrastructure. The activities directly support the functions of winterover technical support at the South Pole, hardware and software systems for acquiring and filtering data at the South Pole, hardware and software systems for transmitting data via satellite and tape to the UW data center, systems for archiving the data in the central data warehouse at UW and UW Data Center Operations as listed in the Cooperative Agreement with NSF.

#### **Section I: Initial Three Years of M&O Common Fund**

#### **Common Fund Contributions**

The following table summarizes the Common Fund (CF) contributions for the first three years of IceCube Maintenance and Operations:

Table 1. Planned and Actual CF Contributions (\$000) For the Initial Three Years of M&O – April 2007 - March 2010

|                               |                             | Year1<br>2007 |                             | Year2<br>2008 |                             | Year3<br>2009 |

| <b>Total CF Planned</b>       | 122                         | \$1,110       | 115                         | \$1,046       | 124                         | \$1,128       |
| U.S. Contribution             | 73                          | \$664         | 73                          | \$664         | 73                          | \$664         |
| Non-U.S. Contribution         | 49                          | \$446         | 42                          | \$382         | 51                          | \$464         |
|                               |                             | Actual        |                             | Actual        |                             | Actual        |
| <b>Total CF Contributions</b> |                             | \$1,110       |                             | \$1,046       |                             | \$1,128       |
| U.S. Cash Transfer            |                             | \$664         |                             | \$664         |                             | \$664         |
| Non-U.S. Cash Transfer        |                             | \$360         |                             | \$343         |                             | \$426         |
| Non-U.S. In-Kind              |                             | \$86          |                             | \$39          |                             | \$38          |
| Balance                       |                             | \$0           |                             | \$0           |                             | \$0           |

All expected contributions for the initial three years of IceCube M&O were fulfilled.

The following bar chart presents the Ph.D. authors head count profile over the initial three years of IceCube M&O. The total number of Ph.D. authors has increased from 122 in April 2007 to 127 in May 2010 (U.S. decreased from 73 to 68 while Non U.S. increased from 49 to 59).

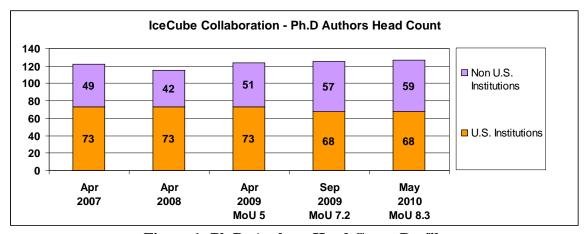

Figure 1: Ph.D. Authors Head Count Profile for the Initial Three Years of M&O

#### Section II: Years 4-9 of M&O Common Fund

## **Common Fund Contributions**

The actual contribution during these years of IceCube operations is larger than in preceding years primarily due to the 50% increase to the Ph.D. author fee. The following table summarizes the planned vs. actual received contribution in 2010-2014.

Table 2. Planned and Actual CF Contributions (\$000) For Years 4-8 of M&O, April 1st, 2010 – March 31st, 2015

|                               |         | Year4<br>2010    |          | Year5<br>2011  |          | Year6<br>2012 |

| Non-U.S. In-Kind              |                             | \$58          |                             | \$139         |                             |               |
| Difference (Actual - Planned) |                             | <b>\$-21</b>  |                             | <b>\$-43</b>  |                             |               |

Actual Common Fund contributions are \$21k less than planned in 2013, and are currently \$43K less in 2014. The following bar chart presents the Ph.D. authors head count profile since the beginning of IceCube M&O. The total number of Ph.D. authors has increased from 129 in March 2014 to 133 in September 2014, to 137 in April 2015 (U.S. increased by 7, Non U.S. increased by 2).

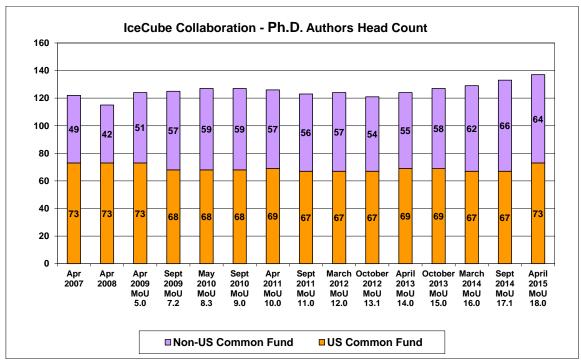

Figure 2: Ph.D. Authors Head Count Profile as of April 2015

The following table provides a more detailed breakdown of the authors head count including faculty, scientists and postdocs, and Ph.D. students based on the most recent MoU update.

Table 3. IceCube Collaboration – Authors Head Count Based on Institutional MoUs-SOW v18.0 (April 2015)

|                                | Total Ph.D.<br>Authors | Faculty | Scientists /<br>Post Docs |  |
|--------------------------------|------------------------|---------|---------------------------|--|
| U.S. Institutions Subtotal     | 73                     | 38      | 35                        |  |
| Non-U.S. Institutions Subtotal | 64                     | 37      | 27                        |  |
| Total U.S. & Non-U.S.          | 137                    | 75      | 62                        |  |

| Ph.D.    |
|----------|
| Students |
| 32       |
| 81       |
| 113      |

Summary of changes over the last six months:

- ➤ US Institutions: the number of Faculty increased by 3, Scientists / Post Docs increased by 3, and Students decreased by 6.
- Non-US Institutions: number of Faculty decreased by 1, Scientists / Post Docs decreased by 1, Students decreased by 4.

## **IceCube M&O Computing Infrastructure Upgrade - 2014/2015**

The following list (Table 4) includes the major purchases for the 2014/2015 upgrades of the South Pole System (SPS), South Pole Test System (SPTS), UW Data Center, UW Data Warehouse and networking equipment that are funded by IceCube M&O Common Fund.

**Table 4: Computing Infrastructure Upgrade - 2014/2015** 

| Sub System         | Item          | Description  | Qty | Unit   | Total \$    |
|--------------------|---------------|--|-----|--------|-------------|
