# IceCube Upgrade Schedule and Cost Management System (Schedule and Cost Database)

1. Planning Stages Schedule and Cost Management System – How did we get here?
2. Current Iteration – Smartsheet™ Cloud-based Schedule and Cost Management System
3. Management of Risks associated with Cost Uncertainty

# 1. Planning Stages Schedule and Cost Management System How did we get here?

## 2. Current Iteration – Smartsheet™ Cloud-based Schedule and Cost Management System

## 2. Current Iteration – Smartsheet™ Cloud-based Schedule and Cost Management System

- Collaborative approach – allows all managers to be actively involved.
- Both Schedule and Cost Management are possible via interacting cost workbook and schedule.
- Allows for ease of use in conjunction with EVMS system

# 2. Current Iteration – Smartsheet™ Cloud-based Schedule and Cost Management System

# 2. Current Iteration – Smartsheet™ Cloud-based Schedule and Cost Management System

Main Dashboard:

- a) Snapshot of Project's Health
- b) Shows major indicators (ex. Percentages complete etc.)
- c) Intuitive

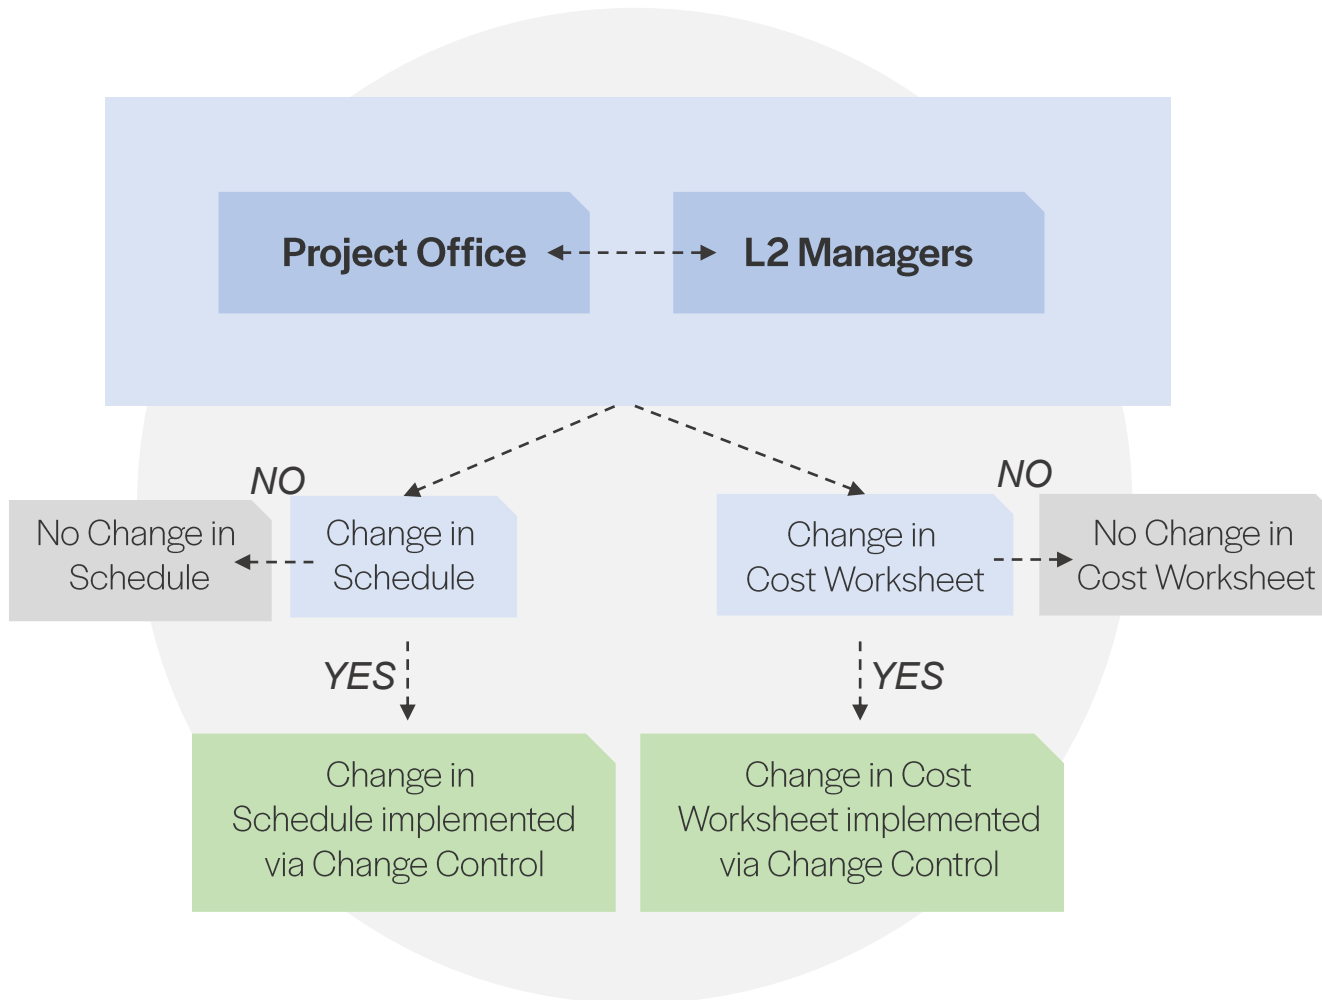

## 2. Current Iteration – Smartsheet™ Cloud-based Schedule and Cost Management System

- Completion-to-date of every WBS task is updated by L2 Managers on Monthly basis.
- These completion percentages factor into EVMS calculation.
- In turn, EVMS metrics are then published in monthly report.

## 2. Current Iteration—SmartSheet™ Cloud-based Schedule and Cost Management System

- Schedule and Cost Workbook are updated annually around September by L2s and Project Office as a part of detail plan.
- Planned Values for next Project Year are calculated using data from updated Cost Workbook.

## 2. Current Iteration – Smartsheet™ Cloud-based Schedule and Cost Management System

## 2. Current Iteration – Smartsheet™ Cloud-based Schedule and Cost Management System

Lack of user-friendliness of basic PM tools lead to adoption of third-party tool – Office Timeline. An add-on to Microsoft Office.

# 2. Current Iteration – Smartsheet™ Cloud-based Schedule and Cost Management System

# 3. Management of Risks associated with Cost Uncertainty

1. Cost Uncertainties were initially calculated during project planning phase and are integral part of Cost Model Workbooks.
2. The Risks based on Cost Uncertainties are tabulated and maintained throughout the whole WBS structure down to L4.
3. They are recalculated during each re-plan period to reflect cost uncertainties to project completions.
4. Many risks are retired because of
  - Task completed
  - change in risk factor due to better planning or cost approximation

IceCube Upgrade Cost Uncertainty calculated values, based on Replan Y2

WBS	Planned				Cost Uncertainty				Total

# Summary

- Current setup allows for collaborative approach and full ownership of the schedule and costs by L2 Managers
- Main components of Time and Cost Management System are built using one platform (smartsheet.com), with virtually unlimited availability
- Schedule and Cost Workbooks interact with each other allowing for better tracking
- Cloud-based components participate in our EVMS system providing data for reporting and project health monitoring
- IceCube's PMCS tools are adaptable to provide better information and support for Project Managers.

# Backups and auxiliaries.

# 3. Management of Risks associated with Cost Uncertainty

## Example for Cost Model Workbooks

Example estimated cost 20,000\$				
	Risk Factors	(See "Risk Analysis Sheet")		
Technical	3			
Cost	2			
Schedule	4			
Multipliers				
Technical Multiplier	0.04			
Cost Multiplier	0.02	Contingency for this Task		
Calculated Contingency	20%		\$ 4,000	

Calculated Contingency =

Technical Risk Factor X Technical Multiplier +

Cost Risk Factor X Cost Multiplier +

Schedule Risk Factor X Schedule Multiplier =  $3 \times 0.04 + 2 \times 0.02 + 4 \times 0.01 = 20\%$

Table 1: Risk Factors

Risk Factor	Technical	Cost	Schedule
1	Existing design and off-the-shelf hardware	Off the shelf or catalog item	not used
2	Minor modifications to an existing design	Vendor quote from established drawings	No schedule impact on any other item
3	Extensive modifications to an existing design	Vendor quote with some design sketches	not used
4	New design within established product line	In-house estimate for item within current production line	Delays completion of non-critical path subsystem item
6	New design different from established product line	Existing technology In-house estimate for item with minimal company experience but related to existing capabilities	not used
8	New design. Requires some R&D development but does not advance the state-of-the-art	In-house estimate for item with minimal company experience and minimal in-house capability	Delays completion of critical path subsystem item
10	New design. Development of new technology which advances the state-of-the-art	Top down estimate from analogous programs	not used
15	New design way beyond the current state-of-the-art	Engineering judgment	not used

Table 2: Risk Percentage

	Condition	Risk Percentage
Technical	Design or manufacturing concerns only	2%
	Design and manufacturing concerns	4%
Cost	Cost Material cost or labor rate concern	1%
	Material and labor rate concern	2%
Schedule		1%

## 2. Current Iteration – Smartsheet™ Cloud-based Time and Cost Management System

The screenshot displays the Smartsheet IceCube directory interface. On the left is a navigation sidebar with categories like Home, Dashboards/Portals, Sheets, Workspaces, and Resource Views. The main area shows a table of workspaces under the 'IceCube' workspace. A 'Share' sidebar on the right lists users with their roles.

Name	Sharing	Owner	Last Update
Development	Workspace	Jim Lowe (jlowe@bb7.com)	10/18/19
L2 Dashboards	Workspace	Jim Lowe (jlowe@bb7.com)	06/26/19
PMO	Workspace	Jim Lowe (jlowe@bb7.com)	06/26/19
PY2 - Replan Exercise	Workspace	Jim Lowe (jlowe@bb7.com)	06/26/19
Reports	Workspace	Jim Lowe (jlowe@bb7.com)	06/26/19
Cost Workbook Y2	Workspace	Marek Rogal	02/06/20
How to provide L2 Updates	Workspace	Jim Lowe (jlowe@bb7.com)	06/26/19
IceCube Dashboard	Workspace	Jim Lowe (jlowe@bb7.com)	11/06/19
Smartsheet Training	Workspace	Jim Lowe (jlowe@bb7.com)	06/26/19
Upgrade Project Schedule Year 2	Workspace	Marek Rogal	2 hours ago
Upgrade Project Schedule_Rev1	Workspace +	Jim Lowe (jlowe@bb7.com)	02/11/20

**Workspace Shared To:**

- Jim Lowe (Owner)
- Catherine Vakhnina (Admin)

- IceCube (Group) (Editor - cannot share)

- IceCube Directory:
- a) Schedule
  - b) Cost Workbook
  - c) Archives
  - d) Main Dashboard

# IceCube Upgrade Project Controls Overview

## Scope Management (Smartsheet.com)

- WBS Structure maintenance. (smartsheet.com => Upgrade Project Schedule Year 2)
- Cost Breakdown Structure (CBS) maintenance. (smartsheet.com => Cost Workbook Y2)

## Cost Management Tools

(smartsheet, excel, python etc)

- **Cost estimation** (smartsheet.com => Cost Workbook Y2, excel => in-house developed spreadsheets)
- **Cost Risk Estimation.** (excel and python-based Monte Carlo simulators and other in-house developed tools)
- **Cost Control** using **EVMS** system built in excel and used for reporting and diagnostics.

## Time Management

- Schedule Updating (annual re-planning), Maintenance & Reporting, smartsheet.com => Upgrade Project Schedule Year 2, data fed into EVMS system and live dashboard (in smartsheet.com for L2 Managers).

## Change Management

- Assistance in Change Assessment
- Schedule Change Assessment & Implementation
- Cost Change Assessment and Implementation
